

“Another Mineral Handling Projects by Tecgates Engineering”

(254230-H)
TECGATES ENGINEERING (M) SDN. BHD.

**LHOIST Lime Production Plant
EPC Downstream and Truck Loading / Bagging System**

Scope of work: Design & Engineering, Procurement, Fabrication, Supply, Installation, Testing and Commissioning.

- List of Major Equipment Involved : -
- : 28 Units at 170 TPH and 120 TPH, Total 1 km of length Conveyor System
 - : 4 Units (Including Process Building) Transfer Station
 - : 10 Units at 400 tons capacity Silos
 - : 2 Units at 170 TPH Bucket Elevator
 - : 17 Units at 170 and 120 TPH Vibrating Feeder
 - : 11 Units at 170 and 120 TPH Screw Conveyor
 - : 20 Units Dust Collection System
 - : 1 Unit Magnetic Separator
 - : 1 Unit Metal Detector
 - : 4 Units Belt Scale
 - : 2 Units Loading Spout
 - : Pneumatic and Manual slide gate, Rod gate, Load cell and Diverter gate
